1. This action is brought in the public interest to enforce important Constitutional rights, namely the right of initiative, referendum, and recall in Shasta County.

TO THE HONORABLE JUDGES OF THE SUPERIOR COURT:

2. Petitioners are the proponents of recall petitions seeking to recall three members of the Shasta County Board of Supervisors: Joe Chimenti (District 1), Leonard Moty (District 2), and Mary Rickert (District 3).

By this Verified Petition, Petitioners petition this Court for a writ of mandate as follows:

- 3. Due to Shasta County's ongoing fire emergencies, the 120-day deadline for Petitioners to submit their recall petitions, as applied to instant circumstances, unconstitutionally infringes on the public's recall right.
- 4. Petitioners seek an order from this Court extending the 120-day deadline from September 29, 2021 to November 4, 2021 or other appropriate relief to make up for the 34 days lost due to wildfire evacuations and unhealthy air quality levels.

PARTIES

- 5. Petitioner Shasta General Purpose Committee/Recall Shasta is a political campaign committee focused on important issues in and around Shasta County. The committee has its principal place of business in Shasta County and its membership includes electors and taxpayers in each of the three supervisorial districts described herein who are also taxpayers that pay sales, income, and property taxes in and for the benefit of Shasta County. The committee has been raising money and collecting signatures to qualify the three recalls for a future election.
- 6. Petitioner **Tim Saunders** is an individual elector residing in Shasta County Supervisor District Number 1. Saunders is a proponent of the proposed recall against Shasta County's District 1 Supervisor, Joe Chimenti.
- 7. Petitioner **Ronnean Lund** is an individual elector residing in Shasta County Supervisor District Number 2. Lund is a proponent of the proposed recall against Shasta County's District 2 Supervisor, Leonard Moty.

- 8. Petitioner **Melody Fowler** is an individual elector residing in Shasta County Supervisor District Number 3. Fowler is a proponent of the proposed recall against Shasta County's District 3 Supervisor, Mary Rickert.
- 9. Respondent Cathy Darling Allen (the Registrar) is, and at all relevant times mentioned in this Petition, was the County Clerk and Registrar of Voters for the County of Shasta, a general law county. In this role, she is the County's elections official. As such, she is charged by law with administering County elections and is the elections official responsible for recalls of county officers. The Registrar is sued in her official capacity.
- 10. The true names of Respondents DOES 1 through 25, inclusive, are unknown to Petitioner, who therefore brings this action against DOES 1 through 25, inclusive, by such fictitious names and will seek leave of this Petition to show their true names, identities, and capacities when they have been ascertained.

JURISDICTION AND VENUE

The relief sought is within the jurisdiction of this Court for the following reasons:

- 11. This action relates to the proposed recall of county officials in Shasta County.
- 12. Respondent is named in her official capacity as an agent of the government of the County of Shasta.

PRIORITY MATTER

13. Time is of the essence. In the absence of judicial relief extending the upcoming September 29, 2021 deadline for Petitioners to submit recall petitions, the Registrar will be prohibited from accepting Petitioner's recall petitions after 5:00 p.m. that day. Petitioners would have to completely start over and will have lost the time and resources invested in the process to date. This will constitute great waste and frustrate the will of voters who have already signed the recall petitions. Expedited scheduling of this writ proceeding, consistent with priority authorized under section 35 of the Code of Civil Procedure and section 13314 of the Elections Code is both necessary and appropriate.

THE RECALL PROCESS

- 14. The right of Californians to pursue initiative, referendum, and recall is contained in Article II of the California Constitution.
- 15. "Recall is the power of the electors to remove an elective officer." (Cal. Const., art. II, § 13.) Petitioning for the recall of a government official is another form of the people's right to "instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good." (Cal. Const., art. I, § 3, subd. (a).)
- 16. The Constitution provides signature requirements for state officers. As to officers holding statewide office, recall petitions must be signed by 12 percent of the electors who last voted for that office. (Cal. Const., art. II, § 14, subd. (b).) As to state officers holding less than statewide office (*i.e.*, Assemblymembers, Senators, Board of Equalization Members, and trial and appellate court judges), the signature requirement is 20 percent of the electors for the last vote of the office. (*Ibid.*) Signature requirements for local officers is otherwise left to the Legislature. (Cal. Const., art. II, § 19; see also *id.* at § 16.)
 - 17. The statutory framework for recalls starts in Elections Code section 11000.
- 18. Because Petitioners' recall targets members of the Shasta County Board of Supervisors, the Registrar is the elections official responsible for the recall. (Elec. Code § 11002, subd. (a).)
 - 19. The applicable process is as follows:
 - a. A recall is initiated by "proponents" who are electors in the electoral jurisdiction of the officer they seek to recall. (Elec. Code § 11005.) As stated above, Petitioners satisfy this requirement.
 - b. They start the process by serving a notice of intention to circulate a recall petition on the officer to be recalled. (Elec. Code § 10006; see also Elec. Code §§ 11020, 11021 [notice requirements].) Petitioners satisfied this requirement.
 - c. After completing prerequisite requirements (see Elec. Code § 11020 *et seq.*), the proponents must submit the proposed recall petition to the elections official for

- approval. (Elec. Code § 11042.) They may not circulate the recall petition until the elections official approves a proposed petition. (*Id.* at subd. (d).) The Registrar approved Petitioners' petitions on June 1, 2021.
- d. Elections Code sections 11220 and 11221 set forth the signature requirement. To qualify the recalls for the ballot, Petitioners must obtain signatures from 20 percent of each district's registered voters within 120 days because each district has between 10,000 and 50,000 registered voters. (Elec. Code §§ 11220, subd. (a)(4), 11221, subd. (a)(3).)
- e. Applied to Petitioners' proposed recall, they have until September 29, 2021 to collect 4,392, 4,308, and 4,432 signatures in Districts 1, 2, and 3, respectively.
- 20. Recalls for local officials are different from recalls of state officials because the number of signatures required to recall a local official is based on the total number of registered voters whereas the signatures necessary to recall a state official is based on the number of people who last voted for the office. (Compare Cal. Const., art. II, § 14, subd. (b) with Elec. Code § 11221, subd. (a).) If the signature requirements were 20 percent of the electors who last voted for that office rather than 20 percent of the registered voters, then signature requirements would be different as follows:
 - a. Joe Chimenti District 1: 2,445 signatures because there were 12,223 votes cast when he was elected in the 2018 General Election. The number of required signatures is more than 80 percent higher than this amount.
 - b. Leonard Moty District 2: 2,024 signatures because there were 10,118 votes cast when he was elected in in the 2020 Primary Election. The number of required signatures is more than 96 percent higher than this amount.
 - c. Mary Rickert District 3: 1,673 signatures because there were 8,362 votes cast when she was elected in the 2020 Primary Election. The number of required signatures is more than 158 percent higher than this amount.

FEDERAL CONSTITUTIONAL PROTECTIONS

- 21. A Californian's right to initiative, referendum, and recall necessarily arises out of their "right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good." (Cal. Const., art. I, § 3, subd. (a).) This is similar to but offers greater protections than the First Amendment to the United States Constitution.
- 22. The First Amendment to the U.S, Constitution, applicable to the states through the Fourteenth Amendment, provides that "Congress shall make no law.,. abridging the freedom of speech, or of the press; or the right of the people to peaceably assemble, and to petition the government." (U.S. Const, amend. I.)
- 23. Although the U.S. Constitution does not require states to provide the right of initiative, "a state that adopts an initiative procedure violates the federal Constitution if it unduly restricts the First amendment rights of its citizens who support the initiative." (*Taxpayers United for Assessment Cuts v. Austin* (6th Cir. 1993) 994 F.2d 291,295.)

SHASTA COUNTY SUPERVISORIAL DISTRICTS

- 24. Shasta County is divided into five supervisorial districts.
- 25. Attached as **Exhibit 1** is a true and correct copy of a map, obtained from the County's online mapping system at https://maps.co.shasta.ca.us/SupervisorDistricts/, showing the County and its five supervisorial Districts.
- 26. District 1 is generally described as the City of Redding. Attached as **Exhibit 2** is a true and correct copy of a detailed map of this district obtained from the Shasta County Registrar of Voters at https://www.elections.co.shasta.ca.us/wp-content/uploads/2013/09/District-1-Enhanced.pdf>, showing the boundaries of District 1. In addition to the City of Redding, District 1 includes the area north of Redding between I5 and the river.
- 27. District 2 is in the southwest portion of the County. Attached as **Exhibit 3** is a true and correct copy of a detailed map of this district obtained from the Shasta County Registrar of Voters at https://www.elections.co.shasta.ca.us/wp-content/uploads/2013/09/District-2-

Enhanced.pdf>, showing the boundaries of District 2. District 2 includes the western part of the county in the area between Trinity National Forest in the north-west, I5 in east except the City of Redding, and Mendocino National Forest in the South, including the communities of Centerville, French Gulch, Happy Valley, Igo/Ono, Keswick, Girvan, Platina, Shasta, South Redding, Verde Vale, Keswick, Kett, and Whiskeytown. District 2 in particular has suffered from repeated fires over the years, with many residences destroyed and never replaced. For this reason, Petitioner is informed and believes that voter registration numbers are inflated compared to prior elections.

28. District 3 is in the northeast portion of the County. Attached as **Exhibit 4** is a true and correct copy of a detailed map of this district obtained from the Shasta County Registrar of Voters at https://www.elections.co.shasta.ca.us/wp-content/uploads/2013/09/District-3-Enhanced.pdf, showing the boundaries of District 3. District 3 is bounded on the east by Lassen National Forest and in the south by Hwy 44 (roughly). District 3 includes the communities of Bella Vista, Big Bend, Burney, Cassel, Fall River Mills, Hat Creek, McArthur, Montgomery Creek, Oak Run, Old Station, Palo Cedro, Pittville, Round Mountain, and Whitmore.

AIR QUALITY RATINGS

- 29. In Bakersfield Citizens for Local Control v. City of Bakersfield (2004) 124 Cal. App. 4th 1184, 1219, a California court recognized that "[i]t is well known that air pollution adversely affects human respiratory health." It further recognized that "[a]ir quality indexes are published daily in local newspapers, schools monitor air quality and restrict outdoor play when it is especially poor and the public is warned to limit their activities on days when air quality is particularly bad." (Id. at pp. 1219-1220.)
- 30. The air quality index, AQI, was created by the United States Environmental Protection Agency (EPA), as required by the Clean Air Act, 42 U.S.C. § 7401 et seq. (42 U.S.C. §§ 7409, 7619; see also 40 C.F.R. § 58.50 [reporting requirements]; American Trucking Associations, Inc. v. E.P.A. (D.C. Cir. 2002) 283 F.3d 355 [unsuccessful challenge to EPA air quality standards].)

23

24

25

26

27

28

- 38. Since June 1, 2021, Shasta County has issued 12 advisories urging people to stay indoors because wildfire smoke made the air unsafe to breathe. These advisories cover the following 26 days: July 23 to 26, July 30 to August 1, August 4, August 5, August 11 to 13, August 13 to 15, August 16, August 20 to 22, August 26, August 30, September 3 to 6, and September 8 to 9. True and correct copies of these advisories are attached as **Exhibit 5**. On these days, people were advised to remain indoors with their windows closed.
- 39. In response to a public records request, Shasta County provided its hourly AQI data for the period from June 1, 2021 through September 12, 2021. A true and correct copy of that data, which includes AQI ratings from monitoring stations in Anderson and Redding, is Attached as Exhibit 6.
 - a. <u>Anderson Monitoring Station</u>: During this period, the maximum AQI reading each day reached the Unhealthy level or worse on 23 days. Of these, 19 were Unhealthy, three were Very Unhealthy, and one was Hazardous.
 - <u>Redding Monitoring Station</u>: During this period, the maximum AQI reading each
 day reached the Unhealthy level or worse on 29 days. Of these, 20 were
 Unhealthy, four were Very Unhealthy, and five were Hazardous.
 - c. From this data, AQI levels were Unhealthy or worse at both the Redding and Anderson monitoring stations on July 23-24, August 6-8, 12-20, 26-31, September 1, and 8-9. AQI levels were Unhealthy or worse at the Redding station alone on July 2, August 21-22, September 7, 10, and 13. There were 29 days where the air quality at one station or the other was classified as Unhealthy or worse.
- 40. These official readings do not necessarily show how bad the air quality has been throughout the entire County. Of the County's three air monitoring stations, only the Redding and Anderson stations monitor for particulate matter (smoke). It stands to reason those areas closer to the fires would have air quality worse than the City of Redding. Petitioners and their supporters have observed this while circulating and attempting to circulate their petitions.

41. In addition to the official monitoring stations, Shasta County has deployed unofficial				
sensors. From the County's website at <a href="https://www.co.shasta.ca.us/index/drm/air-quality/air-q</td></tr><tr><td colspan=5>quality-map>, people are directed to</td></tr><tr><td colspan=5>https://www.purpleair.com/map?opt=1/mAQI/a10/cC0#11/40.5743/-122.3627 in order to				
view information from the County's sensors, which show significant variability throughout the				
county. For example, the one-week averages for all sensors ranges from 124 (Unhealthy for				
Sensitive Groups) to 197 (Unhealthy), which is just three AQI points away from a Very				
Unhealthy one-week average. Additionally, if these are averages, it stands to reason that there				
were also periods of time where the air quality was Hazardous. Attached as Exhibit 7 is a true and				
correct copy of the map printed from				
https://www.purpleair.com/map?opt=1/i/mAQI/a10080/cC0#10.3/40.5006/-122.3519 on				
September 11, 2021 showing the one-week average for all outdoor sensors in the County.				

42. Based on continued fire activity, Petitioners anticipate additional advisories and days of Unhealthy air between now and their September 29, 2021 deadline.

B. Fire-Related Evacuation Orders

- 43. These fires have resulted in evacuation orders in Shasta County. The County's website, Shasta Ready, lists those orders. Attached as **Exhibit 8** is a true and correct copy of the County's wildfire information, printed from https://www.co.shasta.ca.us/ready/wildfire/overview. This information describes the following evacuations:
 - a. August 16-26: McFarland Fire evacuation order near Platina (District 2).
 - August 25: Dixie fire evacuation orders and warnings near Hat Creek and Old Station (District 3).
 - c. August 27-28: McFarland Fire evacuation warning near Platina (District 2).
 - d. September 8, 2021: Dixie fire evacuation orders and warnings near Old Station (District 3).
 - e. September 9, 2021: Dixie fire evacuation warning new Old Station (District 3).

44. Three of these days were not included in the 29 days with Unhealthy AQI ratings (or worse) listed above because. These dates are August 23 to 25. At the Anderson monitoring station, the AQI on these dates was 100, 119, and 84. At the Redding station, the AQI data was 104, 102, and 71. These ratings are not good by any stretch of the imagination, but they were not as bad when the fires were less active. Because Redding and Anderson are a considerable distance from the monitoring areas, the County's AQI data does not show how bad the air actually was in the outlying portions of the County.

C. Effect of Air Quality and Evacuations on Petitioners' Activities

- 45. Shasta County's unhealthy air during this time period has affected Petitioners as follows:
 - a. Circulators could not walk door-to-door in residential areas seeking signatures on the petitions.
 - b. Circulators could not sit outside businesses soliciting signatures.
 - c. Residents were less willing to open their doors to talk to those circulators who ignored the health warnings about going outside when the air was so unhealthy.
 - d. Residents were less willing to go out and limited their travel. Those that did were less willing to linger outside and talk to the circulators who ignored the health warnings about going outside when the air was so unhealthy.
- 46. In sum, most circulators heeded the health warnings or were otherwise unable to engage in petitioning due to one fire effect or another. Those who tried to collect signatures regardless of the circumstances were significantly hampered in their efforts.
- 47. Besides air quality concerns, evacuation orders had the following impacts on Petitioners' activities:
 - a. Circulators could not go door-to-door or sit outside businesses in the evacuation areas.
 - b. Road closures through evacuation areas limited everyone's ability to travel through parts of the County. Circulators could not get to locations that were open,

and non-evacuated residents could not get through locations that were closed (when going to other open areas).

- 48. In many respects, the effect of the evacuations and poor air quality was comparable to the closure orders during the earliest stages of the COVID-19 pandemic.
- 49. Petitioners' difficulties are not limited to their efforts going into the districts in question. Petition circulators are not limited to Shasta County residents, and Petitioners' effort is important to people throughout North State. Volunteers and paid circulators from throughout the region have had issues in their home communities that have affected their ability to participate in Petitioners' effort. For example, Trinity County has been hit harder by fires and has more evacuations and worse air quality. A Trinity County resident that would participate in Petitioners' effort under normal circumstances would not be able to do so because fire-related problems present a more pressing personal concern.

WRIT OF MANDATE

- 50. Writ of mandate is authorized by section 1085 of the Code of Civil Procedure. As used in section 1085, Respondent is "inferior" to this Court and has a duty to uphold the California Constitution when fulfilling her duties under the Elections Code. However, because the Elections Code dictates a 120-day limit, it will take an order from this court that the 120-limit, as applied to Petitioners' effort, unconstitutionally infringes on their initiative, referendum, and recall right. There is no other remedy, plain, speedy, or otherwise adequate to remedy the wrong that will occur if Petitioners' deadline is not extended. Petitioners are beneficially interested in this action both because they are proponents of the recall in question and because there is a public interest in ensuring the government's compliance with the California Constitution. Respondents will have notice and, with the urgency contemplated in section 35 of the Code of Civil Procedure, a peremptory writ can issue in the first instance or an expedited basis after an alternative writ and order to show cause.
- 51. Additionally, writ of mandate is specifically authorized by section 13314 of the Elections Code, which authorizes writ relief when it is alleged that an error or omission is about to occur

with respect to an official election matter or that a neglect of duty has occurred or is about to occur. Here, the neglected duty is application of the state and federal constitutions to extend the unconstitutionally short 120-day deadline to submit the recall petitions. As required by this section, Petitioners include individual electors in each of the three supervisorial districts. To satisfy the requirements of this section, the individual Petitioners are electors in the applicable supervisorial districts. This action cannot interfere with the conduct of any election because the Elections Code contemplates a special election for recalls that qualify and there is otherwise no other election that this action might interfere with.

52. Petitioners have acted diligently in attempting to comply with all statutory requirements and believe they would have been able to satisfy all statutory requirements but for the impact of the fires in Shasta County.

CAUSES OF ACTION

- I. FIRST CAUSE OF ACTION CAL. CONST., ART. II, § 13
- 53. Petitioner realleges and incorporates by reference each preceding paragraph.
- 54. Respondent and those acting by and through her authority have a clear, present, and ministerial duty to refrain from taking action to implement or enforce provisions of law in violation of the Constitution and take such action as is necessary to allow Petitioners to exercise the right of recall as provided for in the section 13 of article II of the California Constitution.
- II. Second Cause of Action U.S. Const. Amends. I & XIV
 - 55. Petitioner realleges and incorporates by reference paragraphs 1 through 52.
- 56. The current 120-day deadline is unconstitutional and unenforceable as applied in light of the fire emergencies that are affecting Shasta County. The 120-day deadline deprives those seeking to circulate and sign the recall petitions of their rights under the First Amendment to the United States Constitution, as applied to the state through the Fourteenth Amendment.
- 57. Respondent and those acting buy and through her authority have a clear, present, and ministerial duty to refrain from taking action to implement or enforce provisions of law in

1	violation of the United States and take such action as is necessary to allow Petitioners to exercise			
2	the right of recall as provided for in the California Constitution.			
3	PRAYER FOR RELIEF			
4	I KITEK I OK KEELEF			
5	Wher	Wherefore, Petitioner prays that the Court:		
6	1.	1. Issue a writ of mandate commanding Respondent to extend the deadline for Petitioners to		
7	submit their recall petitions as necessary to protect the constitutional right of initiative,			
8	referendum, and recall for Petitioners and those signing Petitioners' recall petitions;			
9	2. Award Petitioners their attorneys' fees and costs reasonably incurred herein; and			
10	3.	For such other and further relief as t	the Court deems proper; and	
11	4.	That the Court retain jurisdiction ov	ver this matter.

VERIFICATION

I, Chad D. Morgan, hereby declare as follows:

I am the attorney for all Petitioners. Petitioners are located in Shasta County and are absent from the county where I have my office, which is San Bernardino County. For that reason, I am making this verification for them and on their behalf. I have read the foregoing **Verified**Petition Writ of Mandate and know its contents. I am informed and believe, and on that basis allege, that the matters stated in the Petition are true. I declare under the penalty of perjury under the laws of the State of California that foregoing is true and correct.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

AIR QUALITY ADVISORY

FOR IMMEDIATE RELEASE

Date:

July 23, 2021 - July 26, 2021

Contact:

Shasta County Air Quality Management District, 530-225-5674

AIR QUALITY OFFICIALS URGE CAUTION DUE TO WILDFIRE SMOKE

SHASTA COUNTY – The Shasta County Air Quality Management District is advising Shasta County residents, to remain aware of potential smoke impacts due to multiple wildfires burning in Northern California as well as southern Oregon. Wildfire smoke may transport varying amounts of wildfire smoke into the populated areas of Shasta County. Eastern Shasta County communities of Shingletown, Old Station, Burney, and Fall River Mills may experience overnight and morning smoke impacts. Certain areas may experience higher concentrations of smoke based on proximity to wildfires, time of day, and current weather conditions. All members of the public, especially those with respiratory or heart disease, the elderly, pregnant women, and children should remain alert, and if necessary, reduce or avoid all outdoor exertion when wildfire smoke is present. Everyone else should limit prolonged exertion in areas of noticeable smoke accumulation. Individuals wishing to minimize their exposure should:

- · Limit exercise and outdoor activities
- Remain indoors with the windows and doors closed
- Turn on an air conditioner with a recirculation setting (such as in a vehicle)

Some areas of Shasta County may be experiencing higher concentrations of smoke than others depending on wind patterns and topography. All individuals are urged to use proper judgement when planning activities. The District, California Air Resources Board (CARB), and the EPA highly recommend using the EPA's Fire & Smoke Map (https://fire.airnow.gov) for air quality smoke impacts and current AQI information. Although there are alternative websites with similar information, this

website provides the best information for viewing smoke maps, deployed PM2.5 wildfire monitors, and corrected sensor information. The District website also provides links to the latest and most accurate information available on wildfire smoke impacts and how to protect yourself from smoke.

Some areas of Shasta County may be experiencing higher concentrations of smoke than others depending on wind patterns and topography. All individuals are urged to use proper judgement when planning activities.

For additional information and updates, you may visit the <u>Shasta County Air Quality Management</u> <u>District Wildfire Smoke Webpage</u> or call 530-225-5674.

Additional safety tips can be found by going to Shasta County Health And Human Services <u>Protect</u> <u>yourself from wildfire smoke</u> webpage.

Eastern Shasta County communities of Shingletown, Old Station, Burney, and Fall River Mills may experience overnight and morning smoke impacts.

All members of the public, especially those with respiratory or heart disease, the elderly, pregnant women, and children should remain alert, and if necessary, reduce or avoid all outdoor exertion when wildfire smoke is present. Everyone else should limit prolonged exertion in areas of noticeable smoke accumulation. All individuals are urged to use proper judgement when planning activities. Individuals wishing to minimize their exposure should:

- Limit exercise and outdoor activities
- Remain indoors with the windows and doors closed
- Turn on an air conditioner with a recirculation setting (such as in a vehicle)

The District, California Air Resources Board (CARB), and the EPA highly recommend using the EPA's Fire & Smoke Map (https://fire.airnow.gov) for air quality smoke impacts and current AQI information. Although there are alternative websites with similar information, this website provides the

best information for viewing smoke maps, deployed PM2.5 wildfire monitors, and corrected sensor information. The District website also provides links to the latest and most accurate information available on wildfire smoke impacts and how to protect yourself from smoke.

For additional information and updates, you may visit the <u>Shasta County Air Quality Management District Wildfire Smoke Webpage</u> or call 530-225-5674.

Additional safety tips can be found by going to Shasta County Health And Human Services <u>Protect</u> <u>yourself from wildfire smoke</u> webpage.

AIR QUALITY UPDATE

FOR IMMEDIATE RELEASE

Date:

August 4, 2021

Contact:

Shasta County Air Quality Management District, 530-225-5674

AIR QUALITY OFFICIALS URGE CAUTION DUE TO WILDFIRE SMOKE

SHASTA COUNTY – The Shasta County Air Quality Management District is advising Shasta County residents, to remain aware of potential smoke impacts due to multiple wildfires burning in Northern California. Winds may transport varying amounts of wildfire smoke into the populated areas of Shasta County. Certain areas may experience higher concentrations of smoke based on proximity to wildfires, time of day, topography, and current weather conditions. While all residents of Shasta County are expected to be impacted, residents in the eastern Shasta County communities of Shingletown, Old Station, Burney, and Fall River Mills may experience impacts due to the Dixie fire. In addition, northern and western Shasta County residents in the areas of Dunsmuir, Castella, Platina, Igo, and French Gulch may experience impacts from fires burning in the Shasta Trinity National Forest. These impacts are expected to be concentrated in the late evening and early morning hours with smoke dispersing to the north during the afternoons.

All members of the public, especially those with respiratory or heart disease, the elderly, pregnant women, and children should remain alert, and if necessary, reduce or avoid all outdoor exertion when wildfire smoke is present. Everyone else should limit prolonged exertion in areas of noticeable smoke accumulation. All individuals are urged to use proper judgement when planning activities. Individuals wishing to minimize their exposure should:

- · Limit exercise and outdoor activities.
- Remain indoors with the windows and doors closed.
- Turn on an air conditioner with a recirculation setting (such as in a vehicle).

AIR QUALITY OFFICIALS URGE CAUTION DUE TO WILDFIRE SMOKE

SHASTA COUNTY – The Shasta County Air Quality Management District is advising Shasta County residents, to remain aware of potential smoke impacts due to multiple wildfires burning in Northern California. Winds may transport varying amounts of wildfire smoke into the populated areas of Shasta County. Certain areas may experience higher concentrations of smoke based on proximity to wildfires, time of day, topography, and current weather conditions. The National Weather Service is forecasting a change in wind direction starting Friday, August 6, 2021. This change in wind direction will likely bring significant widespread smoke impacts to residents of Shasta County.

All members of the public, especially those with respiratory or heart disease, the elderly, pregnant women, and children should remain alert, and if necessary, reduce or avoid all outdoor exertion when wildfire smoke is present. Everyone else should limit prolonged exertion in areas of noticeable smoke accumulation. All individuals are urged to use proper judgement when planning activities. SHASTA COUNTY – The Shasta County Air Quality Management District is advising Shasta County residents, to remain aware of continued significant widespread smoke impacts due to the multiple wildfires burning in Northern California. Certain areas may experience higher concentrations of smoke based on proximity to wildfires, time of day, topography, and current weather conditions.

Extreme fire weather has led to increased fire behavior in many areas of Northern California. As a result, increased quantities of smoke have entered the Sacramento Valley and surrounding foothills in Shasta County. While there may be areas where some clearing will occur, many areas of Shasta County will experience UNHEALTHY to HAZARDOUS air quality over the next several days. Areas on the western side of the Sacramento River are expected to receive significant amounts of smoke from the fires burning to the north and west of Shasta County impacting these areas in the evening and nighttime hours with some improvement during the afternoons.

To best protect yourself from wildfire smoke, residents are advised to check air quality smoke impacts in real time and in your area at https://fire.airnow.gov. In addition, specific fire information and smoke safety tips can be found by going to the California Smoke blog's smoke and health information.

AIR QUALITY OFFICIALS URGE CAUTION DUE TO WILDFIRE SMOKE OVER LABOR DAY WEEKEND

FUNCIONARIOS DE CALIDAD DEL AIRE PIDAN PRECAUCIÓN DEBIDO AL HUMO DE INCENDIOS DURANTE EL FIN DE SEMANA DEL DÍA DE TRABAJO

SHASTA COUNTY – The Shasta County Air Quality Management District is advising Shasta County residents, to remain aware of continued significant widespread smoke impacts due to the multiple wildfires burning in Northern California. Certain areas may experience higher concentrations of smoke based on proximity to wildfires, time of day, topography, and current weather conditions.

A forecasted change in weather over the holiday weekend will likely bring increasing amounts of wildfire smoke into the Sacramento Valley and surrounding foothills in Shasta County. While there may be areas where some clearing will occur, many parts of Shasta County will likely experience UNHEALTHY to HAZARDOUS air quality over the next several days. Smoke is expected to pool in the lower elevations within the Sacramento Valley with the most significant impacts on these areas being in the nighttime and early morning hours with some improvement during the afternoons.

To best protect yourself from wildfire smoke, residents are advised to check air quality smoke impacts in real time and in your area at https://fire.airnow.gov. In addition, specific fire information and smoke safety tips can be found by going to the California Smoke blog's smoke and health information.

Wildfire Overview

Dixie Fire Information

Evacuation notice 9/9/21 @ 6:50 pm

The evacuation warnings for Zones 9-A and 9-B are being upgraded to ORDERS. Zones 9-A and B are forested areas.

9-A is an area east of Highway 89 just south of Hat Creek. It extends to the Shasta/Lassen County line. Zone 9-B extends from just east of Cinder Butte on the western edge to the Lassen/Shasta County line and north of Bald Mountain.

Evacuation notice 9/9/21

The Shasta County Sheriff's Office has issued an evacuation WARNING for all residents in Old Station Zone 3. This includes the area east of Highway 89 just north of Black Angus Lane, and north to the intersection of Highway 89 at Doty Road following Bidwell Road east to the Pacific Crest Trail.

Additionally, Zone 9 is also being placed in an Evacuation WARNING. This area is a forested area east of Zone 3 that extends to the Shasta/Lassen County line. Gather all pets, medications, important documents and be prepared to evacuate.

An evacuation WARNING is being issued for Zone 9-B. This is a forested area directly north of Zones 3 and 9 which were previously placed under a warning. Zone 9-B extends from just east of Cinder Butte on the western edge to the Lassen/Shasta County line and north of Bald Mountain.

An evacuation shelter has been set up at the Ward of Life Assembly Church at 37341 Main street in Burney.

Evacuation notice 9/8/21

An evacuation ORDER is being issued for the community of Old Station in Eastern Shasta County due to fire activity on the <u>#DixieFire</u>.

Residents of all roads between the Lassen National Park entrance and the Bridge Campground should leave immediately. Any residences on Highway 44 from the Lassen County line are also being evacuated.

Road closures are at the intersection of Highway 89 and 44 at the entrance of Lassen National Park and at the intersection of Highway 89 at Wilcox Road to the north of Old Station. Traffic is being diverted to northbound Highway 89. Highway 44 is closed at Road A21 on the Lassen County side.

A temporary evacuation point is being set up at the Safeway in Burney.

Evacuation notice 8/25/21

For the #DixieFire. An evacuation ORDER is being issued for:

Hat Creek Rim east to the Shasta County line and south of Highway 44.

This is a forested area with no residences, but, due to potential for fire activity should not be occupied by the public.

Due to the current fire activity in the area north of Butte Lake, the Incident Management Team recommended that the communities in and around the Hat Creek Rim be made aware of the situation. We want the public to be prepared to leave if fire conditions change. At this time, the Dixie Fire is not progressing towards the community of Old Station.

Out of an abundance of caution, the Sheriff's Office is issuing an evacuation WARNING for:

 All residents and campers in Old Station and Hat Creek along both sides of Highway 44 from Big Pines Road north to Brains Way.

Residents under the warning should be prepared to leave the area in case of increased fire activity. This is the time to prepare valuable items such as important documents, prescription drugs and phone chargers, and to sign up for CodeRED alerts if you are not already enrolled https://public.coderedweb.com/CNE/en-US/BFBDCA5E730B.

McFarland Fire Information:

Evacuation update 8/28/21

For the #McFarlandFire. As of 0800 Saturday all evacuation warnings issued by the Shasta County Sheriff's Office are being lifted. This includes the community of Platina and all Shasta County roadways off of Highway 36. This change affects Shasta County residents only. Residents of other counties are urged to get their information from their local authorities.

Residents are urged to remain cautious as fire personnel and equipment remain in the area.

Evacuation update 8/26/21

For the McFarlandFire. As of 12:00 noon all evacuation orders issued by the Shasta County Sheriff's Office are being reduced to evacuation warnings and citizens can return to their homes. This includes the community of Platina and all Shasta County roadways off of Highway 36. This change affects Shasta County residents only. Residents of other counties are urged to get their information from their local authorities.

As residents return home, they are urged to remain cautious as fire personnel and equipment remain in the area.

Evacuation update 8/16/21

For the <u>#McFarlandFire</u>. The Shasta County Sheriff's Office is issuing a mandatory evacuation ORDER for all residents within the township of Platina. The evacuation order includes all residences and roadways from the Trinity/Shasta County line east to the Shasta/Tehama County line. Residents are encouraged to use Platina Road as an evacuation route. There will be a temporary evacuation site at the Igo/Ono Elementary School.

For clarification on the mandatory evacuation ORDER issued earlier for residents within the township of Platina. The evacuation order includes all residences and roadways from White Rock Road and Highway 36 to the Shasta/Tehama County line. White Rock Road and Harrison Gulch Road are open and remain under an evacuation warning.

Per the Trinity County and Shasta County Sheriff's Office, as of Thursday, August 12, 2021 at 5:00 p.m., the following areas have been moved out of Evacuation Warning:

- Community of Wildwood
- Community of Post Mountain near the junction of Highway 36 and Highway 3
- Community of Trinity Pines
- Shields Road
- White Rock Road
- Harrison Gulch Road from Highway 36 to Deerlick Springs Road

The following areas remain under Evacuation Warning:

- · Community of Platina
 - Both sides of Highway 36 from Sunday Gulch Road to the Shasta/Tehama
 County line
 - All roads to the south of Highway 36 from Sunday Gulch Road to the Shasta/Tehama County line including:
 - Beegum Gorge Road
 - Platinum Lane
 - Secluded Glen Lane
 - Shady Nook Drive
 - Beegum Road

All residents and visitors are reminded that the Shasta-Trinity National Forest has issued a closure order for the McFarland Fire, located in Trinity, Tehama and Shasta Counties. The order, Forest Order 14-21-22 (McFarland Fire Closure Order) was issued to protect public health and safety.

McFarland Fire Incident Page

Be alert! Situations can change rapidly amid critical fire conditions.

For information on fires in Shasta County and beyond, visit the Wildfire Information Map or CalFire.

Those who are evacuated due to wildfires are urged by the California State Insurance Commissioner to contact their insurance provider. Evacuees may have homeowner or renter insurance to help with evacuation and relocation costs under Additional Living Expenses coverage, known as ALE. ALE coverage typically includes food and housing costs, furniture rental, relocation and storage, and extra transportation expenses. Other new consumer protections for wildfire survivors can be found here.

Smoke and Air Quality

Wildfire smoke is a mix of gases and fine particles from burning vegetation, buildings, and other materials. Even someone who is healthy can get sick if there is enough smoke in the air.
